This publication seeks to provide cohesive information in a weekly basis on the foreign notifications of the WTO members under the TBT agreement on their notified technical regulations and conformity assessment procedures.

Philippine exporters and relevant stakeholders are invited to review the proposed regulations. Comments that will be received by the BPS will be transmitted to the governments concerned for their consideration.

IN THIS WEEK'S ISSUE

A total of 53 notifications on Agriculture, Construction Materials and Building, Electrical Engineering, Food and Beverages, Manufacturing Engineering etc., from Botswana, Brazil, the European Union, Kenya, United States of America and other countries are listed.

We would like to hear from you. For any questions, suggestions or requests for full text of notified regulations, please contact us at bps@dti.gov.ph

We are glad to be of service to you!

PRODUCTS OF THE CHEMICAL INDUSTRY	UNITED STATES	20/09/2018	G/TBT/N/USA/1057/Rev.1/Add.1	Chemicals - Addendum <i>OAR 333-016-2060 is being amended to clarify the need for only one report (biennial notification) of a specific children's product. Amendments are also made to establish a hierarchy of persons or entities the Authority will hold primarily responsible for reporting and with respect to enforcement, per OAR 333-016-2090, Enforcement and Civil Penalties. OAR 333-016-2060 is also being amended to align rule with existing statute to require that the number of children's products sold or offered for sale in Oregon that contain a HPCCH must be part of a biennial notification.</i>	—
PRODUCTS OF THE CHEMICAL INDUSTRY	UNITED STATES	20/09/2018	G/TBT/N/USA/1395	Chemical substances <i>EPA is proposing significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for 28 chemical substances which were the subject of premanufacture notices (PMNs) . The chemical substances are subject to Orders issued by EPA pursuant to section 5 (e) of TSCA. This action would require persons who intend to manufacture (defined by statute to include import) or process any of these 28 chemical substances for an activity that is designated as a significant new use by this rule to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA's evaluation of the intended use within the applicable review period. Persons may not commence manufacture or processing for the significant new use until EPA has conducted a review of the notice, made an appropriate determination on the notice, and has taken such actions as are required with that determination. In addition to this Notice of Proposed Rulemaking, EPA is issuing the action as a direct final rule elsewhere in this issue of the Federal Register.</i>	17 October 2018
