

15 March 2023

**NOTICE TO RELEVANT STAKEHOLDERS**

Dear Sir/Ma'am:

This refers to the draft regulations distributed through the World Trade Organization – Technical Barriers to Trade (WTO-TBT) website ([www.epingalert.org](http://www.epingalert.org)) from 25 February to 03 March 2023.

Relative thereto, we respectfully invite stakeholders to comment on the notified draft technical regulation from United States:

Document Symbol	Notifying Member	Relevant Dates	Products Covered	Summary
<a href="#">G/TBT/N/USA/1952/Add.1</a>	United States	<p><b>Date of Distribution:</b> 03 March 2023</p> <p><b>Deadline for Comments:</b> 24 April 2023</p>	Aviation system safety - Addendum	This action extends the comment period for the NPRM titled "System Safety Assessments," that was published on 8 December 2022. In that document, the FAA proposed to amend certain airworthiness regulations to standardize the criteria for conducting safety assessments for systems, including flight controls and powerplants, installed on transport category airplanes. With this action, the FAA seeks to reduce risk associated with airplane accidents and incidents that have occurred in service, and reduce risk associated with new technology in flight control systems. The intended effect of this proposed action is to improve aviation safety by making system safety assessment (SSA) certification requirements more comprehensive and consistent. The FAA is extending the comment period closing date to allow commenters additional time to analyze the proposed rule and prepare a response.
