

23 February 2023

NOTICE TO RELEVANT STAKEHOLDERS

Dear Sir/Ma'am:

This refers to the draft regulations distributed through the World Trade Organization – Technical Barriers to Trade (WTO-TBT) website (www.epingalert.org) from 11 to 17 February 2023.

Relative thereto, we respectfully invite stakeholders to comment on the notified draft technical regulation from United States:

| Document Symbol | Notifying Member | Relevant Dates | Products Covered | Summary |
|---------------------------------------|------------------|--------------------------------------------------------------------------------------------------------|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| G/TBT/N/USA/799/Add.6 | United States | Date of Distribution: 14 February 2023 Deadline for Comments: Not Indicated | Lamps - Addendum | The Energy Policy and Conservation Act, as amended (EPCA), prescribes energy conservation standards for various consumer products and certain commercial and industrial equipment, including general service fluorescent lamps (GSFLs). EPCA also requires the U.S. Department of Energy (DOE) to periodically determine whether more- stringent, amended standards would be technologically feasible and economically justified, and would result in significant energy savings. In this final determination, DOE has determined that energy conservation standards for GSFLs do not need to be amended. |
