G/TBT/N/U SA/1771/Ad d.1	United States	<p>Date of Distribution: 07 February 2023</p> <p>Deadline for Comments: Not Indicated</p>	Equipment authorization processes - Addendum	<p>In this document, the Federal Communications Commission (Commission) amends its rules related to equipment authorization to further secure our communications networks and supply chain from equipment that poses an unacceptable risk to national security of the United States or the security and safety of United States persons. The Commission implements revisions to the equipment authorization program to prohibit authorization of equipment that has been identified on the Commission's Covered List--published pursuant the Secure and Trusted Communications Networks Act of 2019--as posing an unacceptable risk to national security of the United States or the security or safety of United States persons, and the Commission prohibits the marketing and importation of such equipment in the United States.</p>
G/TBT/N/U SA/1963	United States	<p>Date of Distribution: 10 February 2023</p> <p>Deadline for Comments: 10 April 2023</p>	Full power television and class a television stations	<p>In this document, the Federal Communications Commission (Commission or FCC) seeks comment on comprehensively deleting, updating, or otherwise revising Commission rules for full power television and Class A television stations that no longer have any practical effect given the completion of the transition from analog to digital-only operations and the post incentive auction transition to a smaller television band with fewer channels. This NPRM also seeks comment on a restructuring of the full power television rules, which largely</p>

				consist of the technical licensing, operating, and interference rules for full power television.
